Specialties

## MUFFLERS

1811-3669

### RACE-TECH

- Diamond-shaped section
- Internal structure is made in stainless steel, TIG welding
- Designed for smoother flow of exhaust

1811-3667

### PRO-RACE

- Silencers design comes from the first prototypes made for MotoGP
- Silencers are built putting together a conical-shaped part with a cylindrical ending section
- Cone-shaped design provides a reduction of dimension and weight
- Silencers are secured to the bike by mounts welded to the main body

### URBAN

- Race-Tech diamond shape with a shorter silencer
- Re-engineered interiors with a new silencing system
- Swing-arm mounts are welded to the silencer body, eliminating the adapting plate
- Made in stainless steel

### COLLECTOR

- Made in AISI 304 stainless steel
- Competition Full Titanium systems are made in titanium
- All junctions and connections are made using CNC-machines parts
- Designed on the bike to create a product with high performance that is durable and reliable

1812-0338

### REFLEX 2.0

- New proposal of the former Reflex exhaust lines from Arrow for maxiscooters
- Made in stainless steel
- Reduced dimensions and weight
- Silencer is adapted to the swingarm by the mounting plate

1811-3634
