## FOR DRESSER/TOURING MODELS

1801-1337

1861-1299

1801-1340

1861-1298

### 100/120 MM EDITION SLIP-ON MUFFLERS

- Classic styling and sound in 100 mm or 120 mm diameters
- Steel construction
- Feature variable sound for custom loudness; sound levels can be adjusted with a mechanical throttle that connects via cables to a valve inside the muffler
- Throttle control can be placed below the tank or on the handlebars to make adjustments while riding
- Optional electronic remote control makes it even easier to make adjustments
- Include 3-line straight-cut end caps; other end caps sold separately, see page 4
- Replacement catalytic converters sold separately
