GLASSLESS MIRROR SERIES MO.VIEW

- Patented mirror surface, which is worked directly into the metal of the body
- Weightless design without edge and frame is possible and the mirror body itself becomes very thin and light
- Resistant to oxidation, corrosion and scratches
- The mirror body, mirror arm and the clamping for the handlebar end are milled on CNC machines from solid aluminium and anodized to a high quality
- All screws are made of stainless steel
- The precise ball joint allows a comfortable and very stable adjustment of the mirror
- Can be mounted at all threaded holes with M10 size
- Price per single piece

NOTE: The mirror is the same for left and right side (except mo.view Race). Please choose two mirrors to have a pair.
