NEW TRANSVERSAL CLUTCH

TRANSVERSAL CLUTCH

J.Costa is presenting their new product, the **unique, revolutionary and patented TRANSVERSAL CLUTCH**

- Revolutionary system using centrifugal force; weights work in a transversal way pressing the springs to the disc
- Constructed of CNC-aluminum with anodized treatment for improved durability, lubrication and cooling
- Aggressive and faster snatch
- More reaction and sensibility in the throttle
- Increase the brake engine
- More retention when you close the throttle
- Less extreme use of the brakes
- The function is similar to the J.Costa variator
