TRIBUTE AIR CLEANER COVER

Conceived by S&S founder and brought to market by his son George B. Smith, the Classic Two Throat carb and matched air cleaner served as a performance milestone in the v-twin space for over a decade. Inspired by the unique style of our Two Throat intake, S&S has created the new "Tribute" air cleaner cover and wrapped it around our proven Stealth filter system creating a classic look combined with modern performance.

NOTE: Stealth air cleaner kit has to be purchased separately (see below)
