NEW REVO-A SUSPENSION
FOR 00-17 HARLEY-DAVIDSON® SOFTAIL MODELS

- REVO coils provide improved plush ride quality, control, and resistance to bottoming-out
- Allows minimal pre-load adjustments when changing between riders' weights or loads
- Billet Aluminum 45 mm smooth bore twin tube design with 25 mm piston reacts quickly for improved fluid flow
- Sandvik Deflective Disc valved damping self-adjusts to frequency and ensures controlled performance
- Low friction sealing system and PTFE based sliding bearings for improved performance and feel
- Three external knob adjustments allow fine-tuning of rebound
- Stainless Steel tie bar design and construction
- Available in standard length shocks only for optimum ride quality and performance
- Available in Black Type III Hard Coat Anodize
- Easy Installation and Adjustment
- Sold in Pairs

NOTE: Heavy Duty applications are recommended for 113 kg (250lb) + rider and passenger total weight.
Also consider Heavy-Duty if the majority of your riding is 2-Up with a passenger and/or gear.
