CRASH BAR

- Protect your motorcycle from possible falls with the range from Customacces engine guards. Made of polished stainless steel or textured black. It will be strengthened as the greatest type protection against elements that may impact the motorcycle's engine
- Custom acces take into account the wide variety of motorcycle models, so it develops specific engine guards for each model. It should be noted that the diameter of the engine guard tube may vary depending on our motorcycle model
- Custom acces offers the necessary hardware together with visual assembly instructions

FINAL SEAT SCREW

- Its countersunk head shell design maintains the aesthetics of your motorcycle, while the grated side profiles allow for easier handling and greater grip
- A specific washer is offered which prevents the screw from loosening in time due to vibrations from riding

ANARCHY SEMIFAIRING

- Boost the image of your Custom motorcycle with the new Anarchy sport semi-fairing from Custom acces
- Made of highly impact resistant materials and with great aerodynamic capacity
- The new Anarchy semi-fairing is the perfect combination of sportiness and protection for your motorcycle, since the 47 cm high and 27 cm wide sizes not only get the extreme look you want, but it also protects the motorcycle and the rider
- Its installation is an easy task, which comes with an assembly kit with instructions and hardware necessary for its correct fitting

SEMIFARINGS BURNOUT

- Less is more. The Burnout Custom acces semi-fairing is ideal for those looking to protect themselves from the wind current without losing the bike's essence. Its design, simple but categorical, will achieve the desired effect
- The structure of the Burnout semi-fairing is made of black ABS, which combines perfectly with dark smoked polycarbonate. The headlight is exposed, while the speedometer will be protected from any impacts at high speeds. Despite its compact size, the rider will be able to reduce air resistance and improve its aerodynamic coefficient
- This way, you will be able to travel more miles without getting fatigued with the wind hitting your chest. As usual with CustomAcces products, installing the Burnout is simple and intuitive. It is available for 49 mm or 39 mm forks.
- Not ABE/TÜV approved

SEMIFARINGS JAX

- Have you ever imagined traveling to the United States without moving from your garage? With the JAX Halfway you can imagine yourself crossing Route 66 on any of our roads. This piece will bring a dark and hooligan look to your custom, giving it an image worthy of any American road bar
- The JAX semi-fairing is made of black ABS material and manages to emphasize its character thanks to the dark smoked polycarbonate. One of its functions is to protect the headlight and the speedometer, but thanks to its design, you will be able to fit it in perfectly and improve the aerodynamic coefficient. By reducing air resistance you will be able to increase the miles without fatigue and enjoy the road even more
- The strength of the polycarbonate will prevent possible impacts of particles or loose stones on the road. As is customary with CustomAcces products, assembling the JAX is simple and intuitive. It is available for 49 mm or 39 mm forks.
- Not ABE/TÜV approved

SEMIFARINGS SAMCRO

- Traveling comfortably on your custom without compromising aesthetics is possible thanks to CustomAcces' Samcro semi-fairing. Its looks are inspired by the American Harley philosophy, with a strong and aggressive touch that will fit perfectly to your bike
- This semi-fairing is made of black ABS material and its architecture has been developed to redirect wind turbulence during the ride. One of its functions is to protect the headlight and the speedometer, but thanks to its design, it will fit perfectly and improve the aerodynamic coefficient. By reducing air resistance, you will be able to increase the miles without fatigue and enjoy the road even more
- The clear polycarbonate ensures a complete view of the road and offers superior protection against possible impacts at high speeds. As usual with CustomAcces products, installing the Samcro is simple and intuitive. It is available for 49 mm or 39 mm forks.
- Not ABE/TÜV approved

CRASH BAR

- Protect your motorcycle from possible falls with the range from Customacces engine guards. Made of polished stainless steel or textured black. It will be strengthened as the greatest type protection against elements that may impact the motorcycle's engine
- Custom acces take into account the wide variety of motorcycle models, so it develops specific engine guards for each model. It should be noted that the diameter of the engine guard tube may vary depending on our motorcycle model
- Custom acces offers the necessary hardware together with visual assembly instructions

ANARCHY SEMIFAIRING

- Boost the image of your Custom motorcycle with the new Anarchy sport semi-fairing from Custom acces
- Made of highly impact resistant materials and with great aerodynamic capacity
- The new Anarchy semi-fairing is the perfect combination of sportiness and protection for your motorcycle, since the 47 cm high and 27 cm wide sizes not only get the extreme look you want, but it also protects the motorcycle and the rider
- Its installation is an easy task, which comes with an assembly kit with instructions and hardware necessary for its correct fitting

DARK NIGHT SEMIFAIRING

- If you require a semi-fairing for a sports oriented Custom motorcycle, both Harley Davidson and Japanese brands, the Custom acces Dark Night semi-fairing is your best option
- Sport design, gloss black finish with light smoked screen and perfect measurements, 47 cm high and 46 cm wide, will guarantee you the best riding experience
- This semi-fairing fits perfectly to the headlight, either round or differently shaped as is the case of the Vulcan S
- The piece is delivered with installation kit instructions and all the necessary hardware for quick and easy fit
