RACING LINE FULL EXHAUST SYSTEM TITANIUM

- A complete high-quality stainless steel exhaust system made with close attention to detail
- Unique design enables it to obtain the maximum output for each specific model of motorcycle while significantly reducing overall weight for top performance in everyday riding or even in the most challenging races
- Muffler sleeves constructed from stainless steel, titanium or carbon fiber
- Headpipes/ collector/ link pipe are made of stainless steel
- End caps constructed from titanium or carbon fiber
- Optional carbon fiber muffler brackets available separately
- Optional catalytic converters available separately
- Performance-oriented catalytic converters that give you all the sound and performance upgrades you're used to with Akrapovič exhaust systems
- Honeycomb metal structure incorporates precious metals such as palladium, rhodium, and platinum into its surface
- These metals convert the poisonous carbon monoxide and unburned hydrocarbons found in exhaust gases into non-toxic carbon dioxide and water vapor

DESCRIPTION	PART #
Race Kit Full Exhaust System	1810-2785

DESCRIPTION	PART #
EVO Kit Full Exhaust System	1810-2786

MUFFLER SLIP-ON LINE TITANIUM/CARBON FIBRE

- Constructed from race-proven materials
- Carbon fibre for the muffler sleeve and titanium for the end cap and link pipe, the racing-inspired design has a smaller sportier appearance and that exhilarating Akrapovič sound to heighten the senses
- It is a simple plug-and-play installation with no remapping needed, and is designed for track use and markets where EC/ECE-type approval is not required
- There are optional headers for improved torque and power, especially from the mid-range upwards
- Static noise level: 103 dB@5500 rpm
- If passenger footrests are removed optional aluminium or carbon fibre muffler bracket is needed

NOTE: This product does not meet emission compliance requirements for street or highway use.

DESCRIPTION	PART #
Muffler Slip-On Line	1811-4016

MUFFLER SLIP-ON LINE TRACK DAY TITANIUM

- The Track Day Slip-On Line for the Honda CBR1000RR-R Fireblade was specially developed for use on racetracks where lower noise levels are required
- It is made from race-proven materials: titanium for the muffler and stainless steel for the link pipe with resonator
- There are optional headers for improved torque and power, especially from the mid-range upwards
- Static noise level: 98,5 dB@5500 rpm
- If passenger footrests are removed optional aluminium or carbon fibre muffler bracket is needed

NOTE: This product does not meet emission compliance requirements for street or highway use.

HEADPIPES

- This offers the option to upgrade the Slip-On Line muffler to a full, complete system
- It is made from perfectly welded lightweight titanium and stainless-steel tubes
- Power and torque are improved, especially from the mid-range upwards
- Optional headers fit also with Akrapovič standard (first fit) silencer
- For perfect performance, throttle response and durability, ECU remapping is mandatory

NOTE: This product does not meet emission compliance requirements for street or highway use.

DESCRIPTION	PART #
Titanium	1812-0482
Stainless-Steel	1812-0483

LINK PIPE TRACK DAY STAINLESS-STEEL

- Optional stainless steel link pipe with resonator for mounting with the muffler and header set from the Evolution Line S-H10E3-APLT or Racing Line S-H10R9-APLT
- It lowers the noise levels for use on racetracks where lower noise levels are required
- Static noise level with noise insert: 97,4 dB@5500 rpm
- Static noise level without noise insert: 101,7 dB@5500 rpm
- For perfect performance, throttle response and durability, ECU remapping is recommended

NOTE: This product does not meet emission compliance requirements for street or highway use.

DESCRIPTION	PART #
Link Pipe Track Day	1812-0484

MUFFLER BRACKETS

- The optional carbon and aluminum muffler bracket is designed to be used with Slip-On Line (Carbon), Slip-On Line (Titanium) Track Day, Evolution Line (Titanium) and Racing Line (Titanium) exhaust systems when the passenger foot-pegs are removed

NOTE: This product does not meet emission compliance requirements for street or highway use.

DESCRIPTION	PART #
Muffler Bracket Carbon Fibre	1861-1495
Muffler Bracket Aluminum	1861-1496
