TRIPLE TREES

- Kits are available in 4 and 6 degree rakes
- The 4 degree rake kit is typically used when installing a 21" or 23" front wheel and the 6 degree kit is recommended for installing a 26" wheel
- Trees come in Black & Chrome with Polished or Raw as a special order option

NOTE: NOT recommended for bikes with the STOCK size front wheel or for install with aftermarket fairing and/or saddlebags.

Chrome	21", 23"	4°	0408-0372

TRIKE TRIPLE TREES

- Kits are available in both 4 and 6 degree rakes and include extended lower fork covers and fork extensions
- The 4 degree rake kit is typically used on a short wheel base trike or sidecar conversion while the 6 degree kit is recommended for most all other trike conversions
- Both applications require the extended fork covers and fork extensions to maintain proper chassis ride height

NOTE: NOT recommended for two wheel motorcycle applications using the STOCK size front wheel.

SOFTAIL FORWARD CONTROLS

- These new Softail Forward Controls feature a unique 3-way front to back adjustable position to suit almost any rider and providing maximum comfort
- The controls can be ordered in chrome or black finish and with lever options in solid, slotted or with holes
- As always our forward controls feature a proven 1¹/₁₆" master cylinder bore size compatible with the stock rear caliper
- Both the shifter and brake pivot assembly incorporate dual sealed bearings and bushings providing a smooth, positive actuation and long-term reliability

NOTE: Extended length versions are not for use with highway bars/engine guards.

Incompatible with Jiffy Stand Sensor, for custom application only.

DESCRIPTION	LEVERS	PART #
FOR 18-20 HARLEY-DAVIDSON SOFTAIL FLHC, FLDE, FLFB, FLSL		
Black	Solid	1622-0536
	Shadow Cut with Slots	1622-0537
Chrome	Solid	1622-0538
	Slotted	1622-0539

FLH FORWARD CONTROLS

- HHI has put it's talents to work and now offers Forward Controls for the Bagger in both standard and 2 1/2" extended length versions.
- These controls bolt right up without modifications and use the stock master cylinder for easy installation and service
- Both the shifter and brake pivot assembly incorporate dual sealed ball bearings providing a smooth, positive actuation for many miles to come

NOTE: Standard length pegs will accommodate crash bar engine guard. Crash bar engine guard will need to be removed to use extended pegs.

Incompatible with Jiffy Stand Sensor, for custom application only.
