**RX-3 TFT  
MULTIFUNCTIONAL MEASURING DEVICE**

- The RX-3 TFT instrument has been redefined for the aftersales market
- The latest high-color 3.5-inch TFT LCD display with a brand new design and user interface ensures that your application on the bike, trike or scooter is not just upgraded by one level
- All the functions that you need for the speedometer, rev counter, odometer and trip, as well as the gear position are already integrated in this instrument
- Versatile information and displays: Target distance and target speed are the other performance features that ensure that the information and the condition of your vehicle are always available to them
- The RX-3 instrument turns every ride into a fun trip!
