AUTOMATIC LITHIUM-PB BATTERY CHARGER AND MAINTAINER

- Battery Charger is the ultimate portable multi-phase digital electronic charger for both lead-acid and lithium-ion batteries (LifePO4)
- It performs multiple analysis to monitor battery activity for safe and efficient charging
- The charger by GET features a built-in battery desulfator to rejuvenate underperforming batteries
- When accidentally unplugged or loses power, the microprocessor remembers the last charging phase in progress
- Battery Charger is also able to attempt to recovery of deeply discharged batteries down to 2V
- It is super-safe, spark-proof, protected against polarity reversal and short circuit and is IP65 certified
- With the CANbus enabled technology it allows charging to the electrical systems found on BMW, Ducati, Triumph and Harley Davidson
